About me

My name is Ehsan Pourhadi, web developer from Malmö.
The reason I am writing to you is that I'm looking for new exciting tasks, maybe with you !?

I am a motivated web developer who likes to work independently. I specialize in HTML / CSS, Javascript, LAMP / LNMP Stacks. I have extensive knowledge in multimedia and mobile development along with a number of other technical skills.

I'm a creative person who likes to photograph, design and make music.
In my spare time I always find small projects to keep me busy. You can see my personal portfolio on my website.

www.ehsan-pourhadi.com

I don't have any education in the field but my great interest in technology has meant that I have learned everything in web and design. Working in web, design and development is something I love and therefore I'm looking for new experiences in this. I hope you think my profile is exciting and you or any colleague wants to meet me in the future.
